

World Fetal Alcohol Spectrum Disorder Awareness Day

FASD Policy and Research Forum

9th September 2015, 9.00am – 12.00pm

With guest speakers

Dr Brian Easton, Health Economist

Andi Crawford, Clinical Psychologist Hawkes Bay

Building 721, Room 201, University of Auckland - Tamaki Campus

261 Morrin Road St John's Auckland

The University of Auckland Centre for Addiction Research and Alcohol Healthwatch invite you to join them and their Guest Speakers at the second FASD Policy and Research Forum.

A year has passed since the FASD Symposium and Roundtable explored policy and research that resulted in the '[FASD Call to Action](#)'. Thanks largely to local and individual initiatives, New Zealand is making some headway in addressing FASD. What remains to be established is planned strategic action at the national level. The 2015 Forum provides an opportunity to acknowledge and celebrate progress and to influence pending Government FASD planning.

RSVP essential. Register by sending individual and organisational details of those attending to christine@ahw.org.nz or Tel: 09 520 7037. There is no charge to attend.
